To you, your present home might be too small, too large, too far from work, too much upkeep ... in short, a burden rather than a bonus. You might even have financial difficulties and risk losing your house.

To us, that same home might be an opportunity. We are <your company name>. We help people buy houses to fix up for rental and/or resale, especially houses that need major work to make them marketable.

So, if your house has become a problem to you, we might become the solution. Call us at <your phone>; we’ll be happy to talk to you about selling your house.

By the way, we also have some houses for sale. Give us a call, and we’ll try to get you into a house that will be right for your needs.

Sincerely yours,

XYZ Realtors
